Apul Kudale

+91 9082 918850 | apukudale@gmail.com | Senior Full Stack Developer

Objective:

To leverage my skills and experience as a Senior Full Stack Developer in an organization that fosters growth and offers challenging projects. Committed to delivering innovative solutions and contributing to the success of the team while achieving personal and professional fulfillment.

Education:

B.E. in Information Technology through Mumbai University – 2017

Technical Skills:

JavaScript, NodeJS, MongoDB, React, HTML, CSS, GIT, AWS, MySQL, PostgreSQL, Elasticsearch, Socket.io.

Experiences:

1. **Quantiphi Analytics: (From Jan 2023 till Date)**
    i. **ML Playground:**
        - Led the revamp of the frontend using React and integrated along with REST APIs in NodeJS.
        - Developed an AI application providing solutions such as Text-to-Speech, Speech-to-Text, Natural Language API, and Vision.
        - Implemented Natural Language API for text classification, entity analysis, syntax analysis, and sentiment analysis on CSV/Text batch datasets.
    ii. **Vehicle Crash Detection Demo:**
        - Developed the frontend using React and integrated it with REST APIs in NodeJS.
        - Created an application for crash detection using object images and provided data summary for vehicle recovery utilizing Google's AI APIs.
2. **Neosoft Technologies: (From Feb 2021 - Jan 2023) (Client: HDFC Life)**
    i. **Rider Renewal: (React, NodeJS, MongoDB)**
        - Developed Frontend using React with along help of REST APIs at NodeJS.
        - This application is used for providing rider benefits for existing HDFC Life insurance policy holders.
        - Promotional message is used to shoot on daily basis to policy holder to renew the policy with premium amount includes payment link.
    ii. **MediEasy: (NodeJS, MongoDB, React)**
        - This application is used for providing Agents to filled the customer's life insurance policies.
        - Responsible for building REST APIs and integrating them into the frontend, contributing to the development of a robust software architecture.

- Developed ITR data verification, EPFO features which enables auto verification in financial Proof. Which in result CA verification manual process is skipped.
- Setup payment gateway for agents and for Customer by payment link through message.

iii. URL Shortener: (NodeJS, PostgreSQL, Redis)
- This application is used for creating short link from long URL.
- Responsible for building Rest APIs in NodeJS side.

iv. Customer 365 Policy detail: (React, NodeJS)
- This application is used for seeing customer's existing HDFC Life insurance Policy details.
- Responsible for building Rest APIs in NodeJS and Integrating them to the Frontend.

3. ITechNoLabs: (From Nov 2020 to Feb 2021)
i. Gayaa: (NodeJS, MongoDB)
- This application is used for playing, adding music by artists and also can see music catalogs.
- Responsible for making code optimization which enhances time for fetching, updating, and adding music by Artist.

4. PMK Ecommerce PVT LTD: (From Jun 2018 to Oct 2020)
i. Beldara.com: (React, NodeJS, MySQL, Elasticsearch)
- This application is used for providing B2B marketplace to customers.
- Responsible for building REST APIs and integrating them into the frontend, contributing to the development of a robust software architecture.
- Deploying the code on EC2 instance and AWS amplify.

ii. Chat Application: (React, NodeJS, Socket.io, MySQL)
- This application is used for providing communication between buyers and sellers. And/or user to user.
- Developed this application using socket.io in NodeJS side and Integrated to the Frontend.
- Responsible for development of a robust software architecture.

iii. Seller Portal: (React, NodeJS, MySQL)
- This application is used for providing services to Sellers for managing product catalogs, orders and Payments.
- Another key responsibility was sending messages to sellers containing payment links for membership activation, simplifying the onboarding process and facilitating transactions.
- I was responsible for writing NodeJS APIs to enable seamless functionality and smooth integration with the application.

Personal Project:
GoAniki.com - E-Commerce Platform.

Personal Profile:

- Name: Apul Shivaji Kudale
- Address: 303, SAI CHSL, Mhada Colony, Laxmi nagar, Ghatkopar – 400075
- DOB: 29th July 1993
- Language: English, Marathi, Hindi.
